PROPER GLOVE WEAR

- Wash hands with hot water and soap for 20 seconds before putting on gloves.
- Select the correct glove size.
- Do not blow or roll gloves to make them easier to put on; avoid touching the outside of gloves as much as possible.
- Wash hands and change gloves...
  - When gloves become dirty or torn
  - Before staring a new task
  - After using the restroom
  - After eating or drinking
  - After an interruption, like using your cell phone
  - After handling raw meat
- Never re-use gloves.
