

Last year in the state of Washington:

- Medicaid provided health insurance for **677,000** low income children
- **22%** of people across the state were covered by Medicaid/CHIP
- The uninsured rate in the state **decreased by 5%**

Dear _____,

No one should be forced to choose between food or medicine, but cuts to essential programs like Medicaid and SNAP will mean just that for struggling Washington families.

I urge you to **reject** revenue-losing tax cuts that raise the deficit and trigger deep cuts to the safety net and programs that invest in our communities because...

Prioritize people over tax cuts! Save Our Safety Net!

REJECT revenue-losing tax cuts! Save our Safety Net!

Quotes from the Food Bank:

“Medicaid has provided care and coverage for my family with funds that I have no means of earning...I don’t have to worry about my children going without care....[we need to] Advocate for the children.”

—Carolyn, mother of 2 young children

“How could I deal with brain cancer without Medicaid?!?! My life depends on it. Even just the stress would affect my health.”

—Karen, retired accountant
